

Acme Global Technologies — Health Benefits & Total Rewards Guide

Policy Document ID: POL-HR-2026-02 | Plan Year: 2026-2027

1. Health Insurance Plan Options: Premier PPO vs. HDHP

Employees can choose between two comprehensive medical plans administered by BlueCross BlueShield:

- Premier PPO Plan: \$500 individual deductible (\$1,000 family). Fixed \$25 copays for in-network primary care visits and \$45 for specialists. Ideal for employees seeking low out-of-pocket unpredictability.
- High-Deductible Health Plan (HDHP) with HSA: \$1,600 individual deductible (\$3,200 family). Lower monthly payroll premiums, combined with a triple-tax-advantaged Health Savings Account (HSA).

2. Employer HSA Annual Contribution

For all employees enrolled in the HDHP, Acme Global automatically deposits an annual employer contribution into their HSA:

- Employee-Only coverage: \$1,000 annual employer contribution (deposited in equal quarterly installments).
- Employee + Family coverage: \$2,000 annual employer contribution (deposited in equal quarterly installments).

Employees may make additional pre-tax contributions up to statutory IRS contribution limits (\$4,300 individual / \$8,550 family for 2026).

3. Mental Health & Employee Assistance Program (EAP)

Acme Global provides 100% confidential mental wellness support via Lyra Health. Every employee and their eligible dependents receive up to 8 free therapy or mental health coaching sessions per calendar year with licensed practitioners.

4. Annual Lifestyle and Wellness Stipend

Full-time employees are eligible for an annual \$500 Lifestyle Wellness Reimbursement. Covered expenses include commercial gym memberships, personal training, fitness trackers (e.g. Apple Watch, Fitbit, Garmin), ergonomic home equipment, and meditation subscriptions (e.g. Calm, Headspace). Reimbursement receipts must be submitted via Concur within 60 days of purchase.
