

Acme Global Technologies — Remote Work & Equipment Guidelines

Policy Document ID: POL-HR-2026-03 | Effective Date: January 1, 2026

1. Workplace Flexibility Models

Acme Global operates on a flexible hybrid model. Engineering and Operations staff may work remotely up to 3 business days per week, with in-office collaboration expected on Tuesdays and Thursdays. Full-time remote arrangements require Department Vice President and People Partner approval.

2. Home Office Setup Stipend

All newly hired regular full-time employees are eligible for a one-time \$1,000 Home Office Setup Stipend within their first 90 days of employment. This stipend covers computer desks, ergonomic chairs, secondary monitors, external keyboards, and noise-canceling headsets. Equipment purchased belongs to the employee upon completion of 1 year of service.

3. Monthly Home Internet Reimbursement

Remote and hybrid employees receive a monthly non-taxable \$75 telecommunications subsidy directly in their monthly payroll paycheck to offset high-speed home internet and mobile data costs.

4. International Remote Work Restrictions (Work From Anywhere)

Employees in good standing may request temporary remote work from outside their primary state or home country for up to 30 calendar days per calendar year. Requests must be submitted at least 21 days in advance via Workday and require InfoSec security clearance and HR tax compliance review. Working from sanctioned countries or exceeding 30 days is strictly prohibited due to international tax nexus regulations.
